Art Unit: 2621

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 38 and 39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1) Claim 38 is indefinite because the preamble of the claim suggests that the claim is directed to a recording medium having a "data structure" recorded thereon yet, as recited, the body of the claim fails to positively set forth the data structure that is actually recorded on the medium. Clarification is required. Similar clarification is required for claim 39;

2) Claim 38 is confusing and indefinite because the claim does not appear to make sense unless the information recited in lines 1-3 thereof are actually recorded on the medium as part of the "data structure" recited in line 4; i.e., hence, it appears that "are recordable" of line 3 should actually read "are recorded", and that the information of lines 1-3 should be recited in the body of the claim as part of the recited "data structure" that is recorded on the medium. Clarification is required. Similar clarification is required for claim 39.

3. Claims 6-8, 15, 16, 24-27, 34, and 35 are allowed.
